INDONESIAN AND CARLOS GAVAO DE MELO

EAST TIMOR, ACTIVISTS PROGRESS REPORT

By aA. Mendonca

East Timor, activists would like to appeal to Portugues Intelectuals when will delegates every Foreign Affairs like Melo should selected who has had experienced in political analyses or large of political visions, in order doesn't embarrased us(Timor Portugues) we should keep our credibility and dignity of Timor Portugues .

Melo has been financialized by oppressors, Invasors' Jenderals in Jakarta Indonesia and instrumented him as a Robot of Indonesia to commits propaganda distortions in purpose to loby and persuades,to invites world openions, these are Indonesian sfforts to cover their record of human rights violation by various forms of their(Indonesian) implementations as the way of Indonesian to face International Community's mouth attacks, so Indonesian seeking their lobies then instrumented it like Ex. Jenderal Melo to cover their embarrasment and in a posetion to block any Resolutions from being taken on matters concerning its Colony as a new Colonialist in the world, where contrast with their Idology Pancasila, constituations articles, Non-aligned constituations which found in Indonesia-Bandung.

For thus East Timor activists appeals again to International Community don't in trusts with Melo and Invasors'stataments concerning Indonesia existance as a new Colonialist or Invasionist which has recognized by the world in East Timor this moment, so we wish to International Community to underline East Timorese matter in this instance .

Indeed Timorese had realised that were exercised by Agressors for several years, so Timorese had been unable to expose the human rights abuse against Timorese in the territory but now not that moment .

Melo stated, that, the strugglers of anti integration and held rebuff Indonesia's annexation to East Timor are Communist. It is one way of Indonesian to oppress Timorese and increase their practical of human rights violation . Timorese demand to International Community to prevene human rights violation go on and we wish peace desire for East Timor. The statments like what was expressed by Melo probably its a view point or perseption of illiterate people or unwell-informed. Timorese clandestine advise to Melo view back all information results which had been announced to the world concerning with human rights abuse against us with our Catholic Religion, culture on the territory. Timorese have had one Religion as a guide of life to prevents every steps of Communist and aggressors' negative culture/idiology effects which do not permited its existance in the world .

Other statments which was exercised by Indonesian officials and Jenderals to Melo that, UN just appreciate Portugues rights on the territory. By - otherhand Indonesian and Melo should have known direct or indirect news which have been circulated in the world untill recent days. Such as report of AMNESTY INTERNATIONAL which has intorduced a 36 page documents, including seven pages of photos of prisoners Aceh independent moviment, West Papua moviment and torture victims from East Timor are strengthened.

The pattern of short-terms detantion, ill-treatment, tortures already noted by AMNESTY in I989 and Dili Santa Cruz Incident I99I and futhermore AMNESTY is gravely concerned for the safety of even youth East Timorese who entered the Embassies of Finlandia and Sweden in Jakarta last year(23 June I993) to seek political Asylum.

According to evidence gathered by Amnesty International, all of these youth who mentioned above have suffered grave persecution by Indonesian Authori - ties for their non-violent political beliefs. Some of them have been victims of serious human rights violation, including, arbitrary, unacknowledged detantion and torture in East Timor so stimulates Timorese has taken various to opposites their opressions and regorously concealed, as acknowledged and many of Timorese where constantely pursued by Indonesian Intelligence agents. It as a result of Millitary or oficials harrasment and intimidation against my both friend; BENEVIDES CORREIA BARROS & Christian Univ. Salatiga Indonesia and ANGELO GODINHO (Jacky) Diponegoro Univ. - Semarang Indonesia when they were passing their vocation days with their families in East Timor, they were constantely pursued by Indonesian Intelligence agents and at endly captured, during in detantion incommunicado and tortured by their captors and said to my friends have to open all of their clothing be nude, then to interogated, We were accused of being Leaders who encouraged and organized and move every activity which Clandestinaly opposites Indonesia, so their Captors forced our friends to admits that our friends knew everithing. Therefore our friends did not confess or say anything about their accusations; the moment our friends were denied, they have begin again with their dread torture whilst forced to kneel on sharp rocks, burned by cigarretes and electric irons, beating,shocks, we were forced to sit on the floor with both feet up on a chair and then a huge rock weigthing roughly 50 kilos was placed on our knees for a long time whilst we were interogated .

Their various forms of torture like these for everybody of Timorese who captured are nonsnesical that we were involved to incur embarrasment and and disfigured Indonesia beforer International Community, discredied . Actually E.T. matter which struggled by Timorese has corelation with Universal Law which adopted inthe UN Res. I5I4-xv. We were the victims who hope to Indonesian and Mr. Melo have to read its in UN's Res. more clearly to develop their understanding .
